Fort William, Home Department, Legislative, the 29th August, 1851.

The following Draft of a proposed Act was read in Council for the first time on the 29th August 1851.

Act No. —— of 1851.

To amend Act XIV. 1843, and to regulate the manufacture of Saltpetre in the Presidency of Bengal.

Whereas the manufacture of alimentary Salt throughout the Presidency of Fort William in Bengal, excepting on account of Government, or, with the sanction of Government, is prohibited by Regulation X. 1819 of the Bengal Code, and by Act XIV. 1843; and whereas Salt is unavoidably produced in the manufacture of Saltpetre, and it is therefore expedient that works for the manufacture and refinery of Saltpetre be regulated, It is enacted as follows:

I. Sections IV. and V. of Act XIV. 1843, are repealed.

II. The manufacture of alimentary Salt and Saltpetre throughout the Presidency of Fort William in Bengal, except on account of Government, or with the license of Government, is prohibited.

III. No person shall be entitled, as of right, to have a license for the manufacture of Salt, but the Government, if it thinks fit in any case, may grant such license, wherever it shall be of opinion that such grant may be made without danger to the public revenue, and upon such conditions and securities as shall, from time to time, appear necessary for the protection of the Revenue.

IV. The Collectors and Deputy Collectors of Customs, under authority for that purpose granted by the Government, shall be competent to grant licenses for the manufacture of Salt upon the conditions and securities as shall from time to time be prescribed.

V. Any person licensed to manufacture Salt may manufacture or refine, or manufacture and refine either Salt, Saltpetre, or both, at the works so licensed, but not elsewhere, under the same license.

VI. Every person, desirous of manufacturing Saltpetre from earth or brine, containing not more Muriate of Soda than thirty-five parts in one hundred parts of the saline substance, shall be entitled, as of right, to have a license for the manufacture of Saltpetre, subject to the provisions of this Act.

VII. Every person, desirous of refining Saltpetre containing not more Muriate of Soda than fifteen parts in one hundred parts of the unrefined Saltpetre, shall be entitled, as of right, to have a license for the refinery of Saltpetre, subject to the provisions of this Act.

VIII. Any person licensed to refine Saltpetre may manufacture Saltpetre at the works so licensed, but not elsewhere under the same license.

IX. There shall not be used in any place licensed for the manufacture of Saltpetre, any earth or brine containing more Muriate of Soda than thirty-five parts in one hundred parts of the saline substance, or in any place licensed for the refinery of Saltpetre, any Saltpetre containing more Muriate of Soda than fifteen parts in one hundred parts of the Saltpetre: and every place licensed for the manufacture or refinery of Saltpetre in which is used or found any earth, brine or Saltpetre containing more Muriate of Soda than is by this Section allowed to be used therein, shall be deemed an unlicensed work.

X. Licenses for the manufacture or refinery of Saltpetre from such substances as aforesaid shall be granted in the form given in the Schedule annexed to this Act, or in such other form as shall be from time to time appointed by Government, on application of the Collector or Deputy Collector of Land Revenue of the District in which the work is to be carried on, or to such other persons resident within the District, as shall be specially appointed by the Government for this purpose of granting such licenses.

XI. The license shall specify whether the works are to be for the manufacture or refinery of Saltpetre, and also the following particulars.

1st. The name and description of the owners to whom the works belong and by whom they are to be worked.

2ndly. The Village and Pergunnah where the works are situated.

3rdly. The number and size of the boilers and filters or vats, the greatest number of workmen to be employed and the estimated yearly produce, and such other particulars as shall be from time to time required by Government to be set forth in the license.

XII. Any wilful misrepresentation or false statement of any particular required to be set forth in the license renders it null and void, from the time of the grant thereof; and no new license shall be granted to the holder of the annulled license without the special permission of the Board of Revenue.

XIII. A separate license shall be necessary for the works in each village, and no license for the manufacture of Salt or Saltpetre, or for the refinery of Saltpetre in one village, shall warrant the establishment of any work in another village.

XIV. The fees payable on the grant of any such license shall be such, as shall be from time to time fixed by the Government, not exceeding the rate of (   ) for each hundred maunds of crude or refined Saltpetre that the works are estimated to produce in one year.

XV. Every holder of a license under this Act, who shall be guilty of any breach of the conditions on which the license is granted, or of any offence against this Act, shall be liable for the first offence, on conviction by a Magistrate, to a fine not exceeding five hundred rupees, payment of which may be enforced by Act II. 1839; also if the fine is not forthwith paid, or if the offence is repeated, the license shall be annulled, and the Salt or Saltpetre in store seized and confiscated.

XVI. Every license granted under this Act, shall remain in force for (   ) years, unless sooner annulled on the application of the person to whom it was granted, or his personal representative, or upon proof that the manufacture has been wholly discontinued during one year at the work for which the license was granted, or of the breach of any condition on which it was granted. Any license may also be annulled on proof that it is for works larger than those which have been used during the then last year, and any license for the manufacture of crude Saltpetre may be annulled on proof that it is for works larger than can be supplied by the saline earth or brine in the neighbourhood which may be lawfully used there;

and in case any license shall be annulled on the ground of the works set forth in it being larger than have been used, or than can be supplied as aforesaid, a new license may be granted for works of less size, and in any such case, a license shall not be again granted for works of a greater size at the same place without the consent, in writing, under the hand of the Collector or Deputy Collector of Customs of the District.

XVII. Whenever any license is annulled on account of any wilful misrepresentation, or false statement, or any breach of the conditions on which it was granted, no new license shall be granted, without special permission of the Board of Revenue, to any person in the same village, or to the holder of the annulled license.

XVIII. Any person who, without such license as is required by this Act, and not on account of Government, shall engage in the manufacture of Salt, or the manufacture or refinery of Saltpetre, or prepare, or cause to be prepared works for such manufacture or refinery, and all zemindars, and other proprietors of land, and their agents, conniving at such unlawful manufacture or refinery, shall, on conviction before any Magistrate, be punished with fine not exceeding five hundred rupees.

XIX. All works at which such unlawful manufacture or refinery shall have been conducted, or which are prepared for such unlawful purpose, shall be destroyed, and all Salt and Saltpetre found therein, and the instruments and materials used in the works, shall be seized and confiscated.

XX. The Collectors of Customs, and Collectors of Land Revenue, within their several jurisdictions, may destroy all such unlawful works, and apprehend the persons concerned therein, and send them for trial to the Magistrate within whose district the offence has been committed.

XXI. Notice of the grant or annulment of every license under this Act shall be forthwith given by the person granting or annulling it to the zemindar, or other proprietor of the land where the works are situated, or to his agent or manager.

XXII. Every zemindar or other proprietor of land, on which any works for the manufacture or refinery of Salt or Saltpetre shall be established, of the license of which such zemindar or other proprietor, or his manager or agent shall not have received notice as aforesaid, shall forthwith give information thereof to the Collector or Deputy Collector of Customs or Land Revenue; and in default of giving such information during one calendar month from the establishment of such works, or during which they are continued without license, or after the license for them has been annulled, shall be liable, on conviction before a Magistrate, to fine not exceeding five hundred rupees for each offence.

XXIII. All Salt made at works licensed for the manufacture of Salt shall be liable to a duty at the rate of two rupees for each maund, on removal from the works, or on being stored there in any quantity exceeding the quantity which the works are estimated to produce in three calendar months.

XXIV. All Salt made at any works licensed for the manufacture or refinery of Saltpetre shall be liable to a duty at the rate of two rupees for each maund, on removal from the works, or on being stored there in any quantity exceeding ten maunds.

XXV. Act XIV. 1843, with the exception of the repealed Sections IV. and V. shall be construed with and as part of this Act.

XXVI. All works licensed under this Act shall be open at any time to the visit and inspection of any Collector or Deputy Collector, or any Patrol or Assistant Patrol in the Customs Department, or of any person specially deputed by one of those Officers, and furnished with a written authority in the English and Native languages to visit and examine the premises. The search may extend to all parts of the works thereto attached, and to all substances, crude or manufactured, which are therein, and may be continued for any time at the discretion of the Officers employed in such search.

XXVII. All persons, who resist the entry into any works licensed under this Act, or into any part of them, of an Officer of the Customs Department, or other person duly authorized as in Section XXVI. shall be liable to the same penalties to which the holder of a license under this Act is liable for a breach of the conditions of his license.

XXVIII. Any Collector or Deputy Collector of Customs, or any Patrol or Assistant Patrol, to whom credible information shall be given on oath, that contraband Salt is stored in any warehouse, dwelling or other place within Customs jurisdiction on any line constituted under Section III. Act XIV. 1843, or of the unlawful manufacture or refinery of Salt or Saltpetre in any enclosed place to which all persons have not free access, or of the clandestine manufacture, refinery, or storing of Salt or Saltpetre in any licensed Saltpetre Manufactory, shall record in writing the following particulars.—First. The name, profession, and residence of the informant. Secondly. The place, that is, the name of the town or village, and description of the house, warehouse, or other place where Salt is unlawfully stored, or where Salt or Saltpetre is unlawfully manufactured, or refined.—Thirdly. The name of the person to whom the house, warehouse, or manufactory belongs, or is supposed to belong—and Fourthly. The supposed quantity and kind of Salt, or the nature of the manufactory, and the grounds for believing that the law has been contravened.

XXIX. Any such Officer of the Customs Department as aforesaid, having before him such written statement, or deposition of an informer, may, with the informant, go in person to the place, or, by a written order under his seal and signature, may depute some Officer of his establishment to go thither in his stead. The Police Darogah also, or other Officer in charge of the nearest Police Thanna or station, shall, in every such case, be summoned by written notice to attend, or to depute some trustworthy Police Officer to attend on his behalf.

XXX. For the purpose of making seizure of Salt in store, or of suppressing or searching any manufactory, so informed against, any such Officer of the Customs Department as aforesaid, in company with the Darogah or head Police Officer, or other Police Officer so deputed, may break open the door of the house, warehouse or other place or enclosure, if, upon requisition duly made, the door be not forthwith opened by the owner or occupant thereof.

XXXI. All Magistrates, or persons exercising the powers of Magistrate, shall be competent to receive and determine all charges, which may be preferred against persons on account of offences

against this Act, and all sentences passed in pursuance of this Act shall be open to appeal under such rules as may, from time to time, be laid down for the cognizance of appeals in ordinary cases.

XXXII. All seizures and confiscations of Salt or Saltpetre, which are made under this Act, shall be reported to the Commissioner of Revenue within whose jurisdiction they are made, and the Commissioner shall decide on the legality of the confiscation. In like manner a summary appeal shall lie to the Commissioner regarding the withholding, or withdrawing of licenses, or the destruction of unlicensed manufactories. Provided always, that nothing shall debar any person who considers himself aggrieved by the act of an Officer of the Customs Department, or the award of a Commissioner, from bringing a regular suit for damages in the Civil Court within the space of twelve calendar months from the occurrence of the act complained against; but after the end of twelve calendar months, no such suit for damages shall be entertained.

XXXIII. All Officers of Police, and all Officers of the Government, engaged in the collection of the Land Revenue, are empowered, and required to aid, and assist the Officers of the Customs Department in giving effect to this Act.

XXXIV. Nothing in this Act contained shall apply to the Saugor and Nurbudda Territories, or to the District of Ajmere.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be reconsidered at the first meeting of the Legislative Council of India after the 29th day of October next.

FRED. JAS. HALLIDAY,
Secy. to the Govt. of India.

Fort William, Home Department, Legislative, the 29th August, 1851.

The following Extract from the Proceedings of the Hon'ble the President of the Council of India in Council in the Legislative Branch of the Home Department under date the 29th August 1851, is published for general information.

Read a second time the Draft of a proposed Act dated the 1st November 1850, and published in the Calcutta Gazette of the 6th November 1850, for remunerating the Sheriff of Calcutta for the execution of Mofussil process under Act XXIII. 1840.

Resolution.—The President in Council resolves that the following amended Draft on the subject, be published for general information.

ACT No. —— OF 1851.

An Act for remunerating the Sheriffs of Calcutta, Madras and Bombay for the execution of Mofussil Process under Act XXIII. 1840.

For making better provision for the Sheriffs of Calcutta, Madras and Bombay, in remuneration for the execution of legal process issued by Courts out of the said towns respectively, It is enacted as follows:

I. The several Sudder Courts of the Lower Provinces of the Presidency of Fort William in Bengal, and of the Madras and Bombay Presidencies shall make, and from time to time amend, subject in each case to the approval of the Governor or Governor in Council of the same Presidency, a table of reasonable fees, to be taken on account of the execution by the Sheriff in such Presidency of any legal process issued by any Court, Judge or Magistrate, beyond the jurisdiction of the several Supreme Courts established by Royal Charter in Calcutta, Madras and Bombay; together with the sums to be allowed for costs of advertisements, or other notifications of sales of property, according to the amount of the decrees to be satisfied by such sales, which fees and sums shall be payable by the party applying for the process before it is sent to the Sheriff for execution, and shall be deemed costs in the cause.

II. Every such Court, Judge and Magistrate shall cause a separate account to be kept of the amount of all fees and sums so paid, and shall, from time to time, as directed by Government, cause the amount thereof to be paid into the local treasury.

III. The Government shall twice in each year account for and pay over to the Sheriff, for the time being, the amount of fees and sums so paid, after deducting all necessary expences of receiving and keeping account thereof, and remitting the net proceeds thereof to Calcutta, Madras or Bombay, as the case may be; or, where the amount has accrued in the Shrievalty of more than one Sheriff, shall apportion the sum paid accordingly between the Sheriff for the time being, and the then late Sheriff.

IV. The Government, if it thinks fit, may compound with the Sheriff for a monthly payment to be made to him instead of such fees and sums, and during such composition may appropriate the said fees and sums to the purposes of Government.

V. Over and above such fees, and sums, or any fixed salary received instead of such fees and sums, the Sheriff shall be entitled to a fee after the rate of Two Rupees Eight Annas for each Hundred Rupees of the value of any goods or property taken and sold by him in execution of any process issued by any Court, Judge or Magistrate beyond the local jurisdiction of the said Supreme Courts which fee shall be taken to cover all expences connected with the seizure and sale, except the expense of advertisement.

VI. No fee, estimated upon the amount of the sum for which any person is taken in execution, shall be payable to the Sheriffs of Calcutta, Madras or Bombay, or any of their Bailiffs, for taking the body of any person in execution on any process issued by any Court, Judge or Ma-

gistrate out of the local jurisdiction of the said Supreme Courts respectively; but instead thereof such fees shall be payable to the Sheriff for taking the body of any person in execution of any such process as shall be settled, from time to time, by the Sudder Court as aforesaid.

VII. If any person taken in execution on any such process shall escape out of the legal custody of the Sheriff, the Sheriff shall not be liable to an action of debt for such escape, but shall be liable only to an action upon the case for damages in consequence of such escape sustained by the person or persons at whose suit the prisoner was taken.

Ordered, that the said Draft be re-considered at the first meeting of the Legislative Council of India after the 29th day of November next.

NOTICE TO MARINERS.

REVOLVING LIGHT ON CAPE RECIFE, SOUTH AFRICA.

HER Majesty's Government at the Cape of Good Hope has given notice, that a *Revolving Light* was to be established on the first of last April, on Cape Recife, the position and character of which is as follows:—

The Lighthouse, which is painted with four horizontal bands, alternately red and white, stands in Latitude 34° 1′ South, and Longitude 25° 40′ East; the height of the building is 80 feet, but the light is elevated 90 feet above the level of the Sea, and is therefore visible to a vessel 12 feet high at the distance of 17 miles, between the bearings of N. by E. round by the Southward to West. The light revolves once in every minute; or when seen from a short distance, it appears to be a Fixed Light with bright Flashes at intervals of a minute each.

Cape Recife is low, but may be distinguished by a hummock near its extremity. The Cockscomb mountain, 5400 feet high, bears from Cape Recife N. N. W. ½ W., whereas, from Cape St. Francis, which is sometimes mistaken for it, the Cockscomb bears N. E. ½ N. Vessels passing Cape Recife should give it a berth of not less than 4 miles to the Westward, and of 2 miles to the Southward, in order to avoid its dangerous reefs, towards which a strong current continually sets.

After rounding Cape Recife from the Westward, and in proceeding to the anchorage off Port Elizabeth, the red buoy on the Dispatch Rock should not be approached in less than 17 fathoms.

A white stone Beacon on the shore when in one with the Lighthouse (bearing S. S. W. ½ W.) points to the 8 feet summit of the Dispatch Rock; and about two miles North of the Lighthouse stand two wooden Beacons, which when in one (about W. by N.) are likewise a mark for the summit of that rock.

At night the light should be always kept to the Northward of E. ½ N. when within the distance of five miles, and vessels must immediately run out, or tack, if within that bearing. When rounding the Cape they should never come into 12 fathoms till the light bears N. W. and then they may haul in N. N. E.

Cape Receife Lights and Algoa Bay.

A Light House having been erected on Cape Receife, copies of the notification, describing the Light and giving directions for entering Algoa Bay, may be obtained *gratis* at the Master Attendant's Office, by all Commanders of Vessels applying for the same.

NEW PILOT STATION FOR THE S. W. Monsoon—Distinction of Lights.

NOTICE is hereby given, that *from and after the* 15*th of March* 1852, the Pilot Station for the South West Monsoon will be changed to the position described in the following Sailing Directions of the Master Attendant of this Port; and that from and after the date specified, the Eastern Channel Light Vessel will show a *bright red light* instead of a *plain one*, as at present, to distinguish it from the Gasper Channel Light, which bears from it about N. N. W., *distant* 22 miles.

By Order of the Superintendent of Marine,

JAMES SUTHERLAND,
Secretary.

Fort William, the 6th May, 1851.

Sailing Directions for Vessels requiring Pilots during the South West Monsoon at the New Station, on the North East part of the Pilot Ridge.

False Point Light House is in latitude 20° 19½′ *north* and longitude 86° 47′ *east*, and a buoy is placed in 21½ fathoms on the Pilot's Ridge, in latitude 20° 49¼′ *north*, and longitude 87° 42′ *east*, the buoy therefore bears from False Point Light House *north* 59° 49′ *east* true, and distant 59¼ miles.

A vessel therefore after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms) should bring it to bear about *west south west* 10 or 15 miles distant, when she will be in 11 or 12 fathoms, then steer *east north eastward*, when the soundings will gradually increase to 23 fathoms on the eastern edge of the Pilot's Ridge. She should then regulate her course so as to keep between the Ridge and 27 fathoms, when by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruizing ground is immediately to the *north east* of the Light Vessel stationed during the *South West Monsoon* in close proximity to the buoy on the Ridge.

The soundings to seaward of the Pilot's Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and on making the former at night, they are strongly recommended to heave to, at a proper distance till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

The Eastern Channel Light Vessel is in latitude 21° 04′ *north* and longitude 88° 14′ *east*, and therefore bears from the buoy on the Pilot's Ridge, *north* 63·26 *east*, true; and distant 32½ miles.

The Eastern Channel Light Vessel burns a blue light every hour during the night, commencing at 7 P. M. and a maroon (or torch) at the intermediate half hours, and her standing Light will from the date above specified, be a *bright red* colour.

The Pilot's Ridge Light Vessel shows one plain standing Light, and burns a blue light every hour, and a maroon at the intermediate half hours, and also fires a gun on sighting any vessel.

During the *North East Monsoon,* the cruizing ground where Ships will have to seek for Pilots, will be as heretofore in the Eastern Channel.

Master Attendant.

NOTICE TO MARINERS.

REVOLVING LIGHT ON CAPE RECEIFE, SOUTH AFRICA.

HER Majesty's Government at the Cape of Good Hope has given notice, that a *Revolving Light* was to be established on the first of last April, on Cape Receife, the position and character of which is as follows:—

The Lighthouse, which is painted with four horizontal bands, alternately red and white, stands in Latitude 34° 1′ South, and Longitude 25° 40′ East; the height of the building is 80 feet, but the light is elevated 90 feet above the level of the Sea, and is therefore visible to a vessel 12 feet high at the distance of 17 miles, between the bearings of N. by E. round by the Southward to West. The light revolves once in every minute; or when seen from a short distance, it appears to be a Fixed Light with bright Flashes at intervals of a minute each.

Cape Receife is low, but may be distinguished by a hummock near its extremity. The Cockscomb mountain, 5400 feet high, bears from Cape Receife N. N. W. ½ W., whereas, from Cape St. Francis, which is sometimes mistaken for it, the Cockscomb bears N. E. ½ N. Vessels passing Cape Receife should give it a berth of not less than 4 miles to the Westward, and of 2 miles to the Southward, in order to avoid its dangerous reefs, towards which a strong current continually sets.

After rounding Cape Receife from the Westward, and in proceeding to the anchorage off Port Elizabeth, the red buoy on the Dispatch Rock should not be approached in less than 17 fathoms.

A white stone Beacon on the shore when in one with the Lighthouse (bearing S. S. W. ½ W.) points to the 8 feet summit of the Dispatch Rock; and about two miles North of the Lighthouse stand two wooden Beacons, which when in one (about W. by N.) are likewise a mark for the summit of that rock.

At night the light should be always kept to the Northward of E. ½ N. when within the distance of five miles, and vessels must immediately run out, or tack, if within that bearing. When rounding the Cape they should never come into 12 fathoms till the light bears N. W. and then they may haul in N. N. E.

Cape Receife Lights and Algoa Bay.

A Light House having been erected on Cape Receife, copies of the notification, describing the Light and giving directions for entering Algoa Bay, may be obtained *gratis* at the Master Attendant's Office, by all Commanders of Vessels applying for the same.

NEW PILOT STATION FOR THE S. W. Monsoon—Distinction of Lights.

NOTICE is hereby given, that *from and after the* 15*th of March* 1852, the Pilot Station for the South West Monsoon will be changed to the position described in the following Sailing Directions of the Master Attendant of this Port; and that from and after the date specified, the Eastern Channel Light Vessel will show a *bright red light* instead of a *plain one*, as at present, to distinguish it from the Gasper Channel Light, which bears from it about N. N. W., *distant* 22 miles.

By Order of the Superintendent of Marine,

JAMES SUTHERLAND,
Secretary.

Fort William, the 6*th May*, 1851.

Sailing Directions for Vessels requiring Pilots during the South West Monsoon at the New Station, on the North East part of the Pilot Ridge.

False Point Light House is in latitude 20° 19½′ *north* and longitude 86° 47′ *east*, and a buoy is placed in 21½ fathoms on the Pilot's Ridge, in latitude 20° 49½′ *north*, and longitude 87° 42′ *east*, the buoy therefore bears from False Point Light House *north* 59° 49′ *east* true, and distant 59¼ miles.

A vessel therefore after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms) should bring it to bear about *west south west* 10 or 15 miles distant, when she will be in 11 or 12 fathoms, then steer *east north eastward*, when the soundings will gradually increase to 23 fathoms on the eastern edge of the Pilot's Ridge. She should then regulate her course so as to keep between the Ridge and 27 fathoms, when by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruizing ground is immediately to the *north east* of the Light Vessel stationed during the *South West Monsoon* in close proximity to the buoy on the Ridge.

The soundings to seaward of the Pilot's Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and on making the former at night, they are strongly recommended to heave to, at a proper distance till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

The Eastern Channel Light Vessel is in latitude 21° 04′ *north* and longitude 88° 14′ *east*, and therefore bears from the buoy on the Pilot's Ridge, *north* 63·26 *east*, true; and distant 32½ miles.

The Eastern Channel Light Vessel burns a blue light every hour during the night, commencing at 7 P. M. and a maroon (or torch) at the intermediate half hours, and her standing Light will from the date above specified, be a *bright red* colour.

The Pilot's Ridge Light Vessel shows one plain standing Light, and burns a blue light every hour, and a maroon at the intermediate half hours, and also fires a gun on sighting any vessel.

During the *North East Monsoon*, the cruizing ground where Ships will have to seek for Pilots, will be as heretofore in the Eastern Channel.

(Signed) H. L. Thomas,
Master Attendant.

THE following Advertisement received through the Secretary to the Government of Fort St. George, is published for general information.

ANATOMY.

Prize of 3,000 Rupees for the translation into Hindoostanee of an Anatomical Book.

His Highness the Nawaub of the Carnatic offers a prize of Rupees 3,000 for a good translation into Hindoostanee, either of Wilson's Vade Mecum; or of the last edition of the Dublin Dissector, or of Quain and Sharpey's Edition of Quain's Anatomy.

The above prize will be given only for that translation of any of the above works which His Highness shall approve of, but His Highness will take into consideration the merits of other translations for a second prize.

The translations must be Diglot, the English on one page, and the translation on that opposite to it.

If the translator choose he may either print and publish the book for his own profit, or allow His Highness to publish it, but if he prefer the former course, the translator will be required to bind himself to publish it within a certain period.

In either case, His Highness the Nawaub will bear the expence of the plates required for the illustration of the work selected for publication.

NOTICE TO MARINERS.

REVOLVING LIGHT ON CAPE RECEIFE,

SOUTH AFRICA.

HER Majesty's Government at the Cape of Good Hope has given notice, that a *Revolving Light* was to be established on the first of last April, on Cape Receife, the position and character of which is as follows:—

The Lighthouse, which is painted with four horizontal bands, alternately red and white, stands in Latitude 34° 1′ South, and Longitude 25° 40′ East; the height of the building is 80 feet, but the light is elevated 90 feet above the level of the Sea, and is therefore visible to a vessel 12 feet high at the distance of 17 miles, between the bearings of N. by E. round by the Southward to West. The light revolves once in every minute; or when seen from a short distance, it appears to be a Fixed Light with bright Flashes at intervals of a minute each.

Cape Receife is low, but may be distinguished by a hummock near its extremity. The Cockscomb mountain, 5400 feet high, bears from Cape Receife N. N. W. ½ W., whereas, from Cape St. Francis, which is sometimes mistaken for it, the Cockscomb bears N. E. ½ N. Vessels passing Cape Receife should give it a berth of not less than 4 miles to the Westward, and of 2 miles to the Southward, in order to avoid its dangerous reefs, towards which a strong current continually sets.

After rounding Cape Receife from the Westward, and in proceeding to the anchorage off Port Elizabeth, the red buoy on the Dispatch Rock should not be approached in less than 17 fathoms.

A white stone Beacon on the shore when in one with the Lighthouse (bearing S. S. W. ½ W.) points to the 8 feet summit of the Dispatch Rock; and about two miles North of the Lighthouse stand two wooden Beacons, which when in one (about W. by N.) are likewise a mark for the summit of that rock.

At night the light should be always kept to the Northward of E. ½ N. when within the distance of five miles, and vessels must immediately run out, or tack, if within that bearing. When rounding the Cape they should never come into 12 fathoms till the light bears N. W. and then they may haul in N. N. E.

Cape Receife Lights and Algoa Bay.

A Light House having been erected on Cape Receife, copies of the notification, describing the Light and giving directions for entering Algoa Bay, may be obtained *gratis* at the Master Attendant's Office, by all Commanders of Vessels applying for the same.

NEW PILOT STATION

FOR THE

S. W. Monsoon—Distinction of Lights.

NOTICE is hereby given, that *from and after the 15th of March* 1852, the Pilot Station for the South West Monsoon will be changed to the position described in the following Sailing Directions of the Master Attendant of this Port; and that from and after the date specified, the Eastern Channel Light Vessel will show a *bright red light* instead of a *plain one*, as at present, to distinguish it from the Gasper Channel Light, which bears from it about N. N. W., *distant* 22 miles.

By Order of the Superintendent of Marine,

JAMES SUTHERLAND,
Secretary.

Fort William, the 6th May, 1851.

Sailing Directions for Vessels requiring Pilots during the South West Monsoon at the New Station, on the North East part of the Pilot Ridge.

False Point Light House is in latitude 20° 19¾′ *north* and longitude 86° 47′ *east*, and a buoy is placed in 21½ fathoms on the Pilot's Ridge, in latitude 20° 49¾′ *north*, and longitude 87° 42′ *east*, the buoy therefore bears from False Point Light House *north* 59° 49′ *east* true, and distant 59½ miles.

A vessel therefore after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms) should bring it to bear about *west south west* 10 or 15 miles distant, when she will be in 11 or 12 fathoms, then steer *east north eastward*, when the soundings will gradually increase to 23 fathoms on the eastern edge of the Pilot's Ridge. She should then regulate her course so as to keep between the Ridge and 27 fathoms, when by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruizing ground is immediately to the *north east* of the Light Vessel stationed during the *South West Monsoon* in close proximity to the buoy on the Ridge.

The soundings to seaward of the Pilot's Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and on making the former at night, they are strongly recommended to heave to, at a proper distance till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

The Eastern Channel Light Vessel is in latitude 21° 04′ *north* and longitude 88° 14′ *east*, and therefore bears from the buoy on the Pilot's Ridge, *north* 63·26 *east*, true; and distant 32½ miles.

The Eastern Channel Light Vessel burns a blue light every hour during the night, commencing at 7 P. M. and a maroon (or torch) at the intermediate half hours, and her standing Light will from the date above specified, be a *bright red* colour.

The Pilot's Ridge Light Vessel shows one plain standing Light, and burns a blue light every hour, and a maroon at the intermediate half hours, and also fires a gun on sighting any vessel.

During the *North East Monsoon*, the cruizing ground where Ships will have to seek for Pilots, will be as heretofore in the Eastern Channel.

(Signed) H. L. THOMAS,
Master Attendant.

No. 489 *of* 1851.—The following Despatch No. 83, from the Hon'ble the Court of Directors to the Governor of the Presidency of Fort William in Bengal, dated 6th August 1851, is published for general information:

No. 83 of 1851.

Military Department.

Our Governor of the Presidency of Fort William in Bengal.

We forward to you, the copy of a Letter from H. Merivale, Esq., dated Downing Street, 22nd July 1851, announcing that Her Majesty's Government has authorized the Lieutenant Governor of Van Dieman's Land to hold out to any Officers of the East India Company's Forces, the same privileges in respect to Land which are accorded to the Queen's Officers of similar rank. You will be pleased to communicate this announcement in General Orders for the information of Officers retiring from the service.

We are, &c.,

(Sd.) J. W. Hogg, *and*
Thirteen other Directors.

London, 6th August, 1851.

Downing Street, 22nd July, 1851.

Sir,—With reference to the correspondence which has passed on the question of granting to Officers of the East India Company's Service the same privileges which are allowed to Officers of Her Majesty's Army and Navy, in the acquirement of Land in the Colonies, I am directed by Earl Grey to acquaint you for the information of the Commissioners for the affairs of India, that circumstances have occurred which have led Her Majesty's Government to hold out encouragement to all persons of good character and possessed of independent means who may resolve to settle in Van Dieman's Land.

The objection felt to conferring the abovementioned privileges on the Company's Officers in the Colonies generally, rested chiefly on the ground that it did not fall within the duty of those Officers to serve in the Colonies, and consequently that undoubted as were their merits, there would have been no more reason to grant any particular boon to them than to any other settlers of equal respectability. But Van Dieman's Land is now placed in a position somewhat different from that of most other Colonies. It presents the rare example of a Settlement in which the amount of available labor is very large in proportion to the number of employers. The result is, that it is for the public interest to encourage some additional influx of persons possessed of means of their own, whilst on the other hand the unusual abundance and the consequent cheapness of labor, affords to such persons an advantage which they would not be able to meet in any other new Countries. On these grounds, I am to state that Her Majesty's Government has been very happy to authorize the Lieutenant Governor of Van Dieman's Land to hold out to any Officers of the East India Company's Forces the same privileges in respect to Land which are accorded to the Queen's Officers of similar rank, and I am to request that this information may be conveyed to the Court of Directors, to whom Lord Grey hopes that it may be acceptable, and that the Court of Directors may be moved to take such steps as it may deem proper to make the measure known amongst Officers in their service.

Enclosed are some Copies of the existing Regulations in respect to Military Settlers.

I am, &c.,

(Signed) Herman Merivale.

The Hon'ble J. E. Elliot, M. P.

Information for the use of Military and Naval Officers proposing to settle in certain of the British Colonies.

1. The Colonies in which Military and Naval Officers are allowed privileges in the acquisition of public Lands, are the following:—*First*, The Australian Settlements, consisting of New South Wales, Van Dieman's Land, South Australia, Western Australia, and the Northern Province of New Zealand; *Secondly*, Ceylon; and *Thirdly*, the Cape of Good Hope.

2. In the different Australian Settlements, in Ceylon, and at the Cape of Good Hope, land is disposed of by sale only; but Officers purchasing land, are allowed a remission of the purchase money, according to the undermentioned scale:

Field Officers, of 25 years' service and upwards, in the whole,............	£600
Field Officers, of 20 years' service and upwards, in the whole,............	500
Field Officers, of 15 or less years' service, in the whole,............	400
Captains, of 20 years' service and upwards, in the whole,............	400
Captains, of 15 years' service or less, in the whole,...	300
Subalterns, of 20 years' service and upwards, in the whole,............	300
Subalterns, of 7 years' service and upwards, in the whole,............	200

Subalterns, under 7 years' standing, are not entitled to any remission in the purchase of Land.

Regimental Staff Officers, and Medical Officers of the Army and Navy, are allowed the benefit of this Rule.

3. Officers of the Army or Navy, proposing to proceed to the Colonies, in order to take advantage of this indulgence, should provide themselves with certificates from the Office of the Commander-in-Chief, or of the Lords Commissioners of the Admiralty, or of the Master General of the Ordnance, shewing that their emigration has been sanctioned, and stating exactly their rank and length of service. No document from the Office of the Secretary of State is necessary.

4. Military Chaplains, Commissariat Officers, and Officers of any of the Civil Departments of the Army; Pursers, Chaplains, Midshipmen, Warrant Officers of every description, and Officers of any of the Civil Departments of the Navy, are not allowed any privileges in respect of land. Although members of these classes may have been admitted formerly, and under different circumstances, they are now excluded. Mates in the Royal Navy rank with Ensigns in the Army, and Mates of three years' standing, with Lieutenants in the Army, and are entitled respectively to corresponding privileges in the acquisition of lands.

5. Gentlemen who have ceased to belong to Her Majesty's Service are not allowed the advantages to which they were entitled while in the Army or Navy. This rule, however, is not to affect Officers who desire to quit the Service, for the express purpose of settling in the Colonies; it is only required, that when they resign their Commissions, they should apply for a certificate from the Commander-in-Chief, or from the Lords Commissioners of the Admiralty, or from the Master General of the Ordnance, that they do so with the view of emigrating, and such certificate, if produced to the Governor of any of the Colonies before-mentioned within one year from its date, *but not otherwise*, will be a sufficient warrant for allowing the bearer the same advantages as Officers who are still in Her Majesty's Service.

6. An actual residence of two years in the Colony must be proved before the Titles can be granted, except in cases in which death may have occurred before the expiration of that period.

7. For the convenience of Officers, the following heads are subjoined of the Rules for the sale of Land in the Australian Settlements:—

All Lands are disposed of by sale alone, and must have been once at least exposed to public auction.

The lowest upset price is not less than £1 per acre; but the Government has power to raise the same by Proclamation, though not again to reduce it.

The lands are distinguished into three different classes; viz., Town Lots, Suburban Lots, and Country Lots.

Upon Town and Suburban Lots, as well as upon a proportion not exceeding one-tenth of the whole of the Country Lots offered for sale at any auction, the Governor has the power of naming a higher than the general or lowest upset price: these last to be designated "Special Country Lots."

Town and Suburban Lots are in no case disposed of except by public auction; but Country Lots, which have already been put up to public auction, and not sold, may be disposed of afterwards by private contract at the upset price.

No Lands are sold by private contract, except for ready money. When sold by public auction, one-tenth at least of the whole purchase-money must be put down, and the remainder within one calendar month, or the deposit is forfeited.

Lands are put up for sale in Lots not exceeding one square mile in extent.

8. In Ceylon, Land is sold by auction at an upset price, which is to be fixed by the Governor, but which is not to be less than £1 per acre. Before the Lands are exposed for sale, they will be surveyed by the Government, and duly advertised.

9. At the Cape of Good Hope the upset price is 2*s.* per acre in the old Colony, and 4*s.* per acre in the District of Natal.

10. The several prices above-mentioned are of course subject to a revision at any time by the proper authorities, and the pecuniary amount of the Remission made to Officers cannot be increased on account of an increased value set upon the Lands.

May, 1851.

NOTICE TO MARINERS.

REVOLVING LIGHT ON CAPE RECEIFE, **SOUTH AFRICA.**

HER Majesty's Government at the Cape of Good Hope has given notice, that a *Revolving Light* was to be established on the first of last April, on Cape Receife, the position and character of which is as follows:—

The Lighthouse, which is painted with four horizontal bands, alternately red and white, stands in Latitude 34° 1′ South, and Longitude 25° 40′ East; the height of the building is 80 feet, but the light is elevated 90 feet above the level of the Sea, and is therefore visible to a vessel 12 feet high at the distance of 17 miles, between the bearings of N. by E. round by the Southward to West. The light revolves once in every minute; or when seen from a short distance, it appears to be a Fixed Light with bright Flashes at intervals of a minute each.

Cape Receife is low, but may be distinguished by a hummock near its extremity. The Cockscomb mountain, 5400 feet high, bears from Cape Receife N. N. W. ½ W., whereas, from Cape St. Francis, which is sometimes mistaken for it, the Cockscomb bears N. E. ½ N. Vessels passing Cape Receife should give it a berth of not less than 4 miles to the Westward, and of 2 miles to the Southward, in order to avoid its dangerous reefs, towards which a strong current continually sets.

After rounding Cape Receife from the Westward, and in proceeding to the anchorage off Port Elizabeth, the red buoy on the Dispatch Rock should not be approached in less than 17 fathoms.

A white stone Beacon on the shore when in one with the Lighthouse (bearing S. S. W. ½ W.) points to the 8 feet summit of the Dispatch Rock; and about two miles North of the Lighthouse stand two wooden Beacons, which when in one (about W. by N.) are likewise a mark for the summit of that rock.

At night the light should be always kept to the Northward of E. ½ N. when within the distance of five miles, and vessels must immediately run out, or tack, if within that bearing. When rounding the Cape they should never come into 12 fathoms till the light bears N. W. and then they may haul in N. N. E.

NEW PILOT STATION

FOR THE

S. W. Monsoon—Distinction of Lights.

NOTICE is hereby given, that *from and after the 15th of March* 1852, the Pilot Station for the South West Monsoon will be changed to the position described in the following Sailing Directions of the Master Attendant of this Port; and that from and after the date specified, the Eastern Channel Light Vessel will show a *bright red light* instead of a *plain one*, as at present, to distinguish it from the Gasper Channel Light, which bears from it about N. N. W., *distant* 22 miles.

By Order of the Superintendent of Marine,

JAMES SUTHERLAND,
Secretary.

Fort William, the 6th May, 1851.

Sailing Directions for Vessels requiring Pilots during the South West Monsoon at the New Station, on the North East part of the Pilot Ridge.

False Point Light House is in latitude 20° 19½′ *north* and longitude 86° 47′ *east*, and a buoy is placed in 21½ fathoms on the Pilot's Ridge, in latitude 20° 49½′ *north*, and longitude 87° 42′ *east*, the buoy therefore bears from False Point Light House *north* 59° 49′ *east* true, and distant 59½ miles.

A vessel therefore after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms) should bring it to bear about *west south west* 10 or 15 miles distant, when she will be in 11 or 12 fathoms, then steer *east north eastward*, when the soundings will gradually increase to 23 fathoms on the eastern edge of the Pilot's Ridge. She should then regulate her course so as to keep between the Ridge and 27 fathoms, when by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruizing ground is immediately to the *north east* of the Light Vessel stationed during the *South West Monsoon* in close proximity to the buoy on the Ridge.

The soundings to seaward of the Pilot's Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it; whilst those *on* the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and on making the former at night, they are strongly recommended to heave to, at a proper distance till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

The Eastern Channel Light Vessel is in latitude 21° 04′ *north* and longitude 88° 14′ *east*, and therefore bears from the buoy on the Pilot's Ridge, *north* 63·26 *east*, true; and distant 32½ miles.

The Eastern Channel Light Vessel burns a blue light every hour during the night, commencing at 7 P. M. and a maroon (or torch) at the intermediate half hours, and her standing Light will from the date above specified, be a *bright red* colour.

The Pilot's Ridge Light Vessel shows one plain standing Light, and burns a blue light every hour, and a maroon at the intermediate half hours, and also fires a gun on sighting any vessel.

During the *North East Monsoon*, the cruizing ground where Ships will have to seek for Pilots, will be as heretofore in the Eastern Channel.

General Orders by the Hon'ble the President of the Council of India in Council.

Fort William, 19th September, 1851.

No. 494 *of* 1851.—As at certain seasons of the year Officers at the Presidency belonging to corps stationed at cantonments accessible by the rivers of the Punjaub, may find greater facilities for joining by proceeding by sea to Bombay and Kurrachee, and thence up the Indus and other rivers of North-Western India, instead of pursuing the usual inland route viâ Benares, Meerut, &c. &c., the Hon'ble the President in Council, with the concurrence of the Most Noble the Governor General, is pleased to notify that the assent of Government to applications transmitted through the department of the Adjutant General, by desire of His Excellency the Commander-in-Chief, for Officers so to proceed viâ Bombay and the rivers of the Punjaub, will, when accorded, be notified in Government General Orders, and Shipping Orders will be granted from the Military Department. Such applications need not be accompanied by a Pay certificate.

2. During the absence of the Commander-in-Chief from the Presidency, applications may be submitted through the Assistant Adjutant General of the Army at Calcutta.

3. It is to be distinctly understood that permission to proceed, viâ Bombay, &c., gives no claim to any allowance whatever beyond what would be admissible were the usual inland route by Benares, Meerut, &c., followed, and Officers will be held responsible that no avoidable delay occurs in rejoining their corps.

No. 495 *of* 1851.—With the concurrence of the Most Noble the Governor General of India, the Hon'ble the President of the Council of India in Council is pleased to direct that the following Rules shall be substituted for those promulgated in General Orders by the Governor General of India in Council, No. 25, dated 24th January 1845:

1. With a view to more effectually providing for the Staff duties of mixed detachments formed from different Corps, and to the adoption in regard thereto of one system applicable to the three Presidencies, it is ordered, in modification of Government General Orders of the 16th December 1816, that, when a detachment consisting of the actual strength of two Regiments, or of more than that strength, but less than three regiments, inclusive of irregular Corps or local troops, may be formed for active service, or for the performance of important duties, whether of an offensive, or of a defensive nature, for instance to escort treasure or stores, either within or beyond the territories of the Hon'ble the East India Company, the Officer commanding the detachment shall nominate an Officer, not on regimental Staff, to perform the Staff duties of the detachment, such nomination being subject to confirmation by the Commander-in-Chief.

2. The Officer nominated as detachment Staff, will, from the date of entering on the duties of that situation, be removed from the command or charge of the Troop or Company which he may have held in his own Corps, and will draw a consolidated Staff Allowance at the rate of rupees (110) one hundred and ten monthly while so employed.

3. The same rule is applicable to detachments formed as above, which may exceed the strength of one, but fall short of the strength of two regiments.

It may happen that no regimental Staff Officer is present with the portions of Corps forming these smaller detachments; when this occurs, the Officer appointed to perform the detachment Staff duties will, instead of the above sum of one hundred and ten rupees (110), receive the full allowances of an Adjutant of a Corps of the line, in consideration of his increased labors.

No. 496 *of* 1851.—Lieutenant Edward John Dodd, of the 62nd Regiment N. I., having been declared incapable of performing the active duties of his profession, is, at his own request, transferred to the Invalid Establishment from the 15th August 1851.

NEW PILOT STATION
FOR THE
S. W. Monsoon—Distinction of Lights.

NOTICE is hereby given, that *from and after the 15th of March* 1852, the Pilot Station for the South West Monsoon will be changed to the position described in the following Sailing Directions of the Master Attendant of this Port; and that from and after the date specified, the Eastern Channel Light Vessel will show a *bright red light* instead of a *plain one*, as at present, to distinguish it from the Gasper Channel Light, which bears from it about N. N. W., *distant* 22 miles.

By Order of the Superintendent of Marine,

JAMES SUTHERLAND,
Secretary.

Fort William, the 6th May, 1851.

Sailing Directions for Vessels requiring Pilots during the South West Monsoon at the New Station, on the North East part of the Pilot Ridge.

False Point Light House is in latitude 20° 19½′ *north* and longitude 86° 47′ *east*, and a buoy is placed in 21½ fathoms on the Pilot's Ridge, in latitude 20° 49½′ *north*, and longitude 87° 42′ *east*, the buoy therefore bears from False Point Light House *north* 59° 49′ *east* true, and distant 59¼ miles.

A vessel therefore after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms) should bring it to bear about *west south west* 10 or 15 miles distant, when she will be in 11 or 12 fathoms, then steer *east north eastward*, when the soundings will gradually increase to 23 fathoms on the eastern edge of the Pilot's Ridge. She should then regulate her course so as to keep between the Ridge and 27 fathoms, when by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruizing ground is immediately to the *north east* of the Light Vessel stationed during the *South West Monsoon* in close proximity to the buoy on the Ridge.

The soundings to seaward of the Pilot's Ridge are in general a greenish or olive coloured mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and on making the former at night, they are strongly recommended to heave to, at a proper distance till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

The Eastern Channel Light Vessel is in latitude 21° 04′ *north* and longitude 88° 14′ *east*, and therefore bears from the buoy on the Pilot's Ridge, *north* 63·26 *east*, true; and distant 32¼ miles.

The Eastern Channel Light Vessel burns a blue light every hour during the night, commencing at 7 P. M. and a maroon (or torch) at the intermediate half hours, and her standing Light will from the date above specified, be a *bright red* colour.

The Pilot's Ridge Light Vessel shows one plain standing Light, and burns a blue light every hour, and a maroon at the intermediate half hours, and also fires a gun on sighting any vessel.

During the *North East Monsoon*, the cruizing ground where Ships will have to seek for Pilots, will be as heretofore in the Eastern Channel.

General Orders by the Most Noble the Governor General of India.

Simla, 16th September, 1851.

The Most Noble the Governor General is pleased to lay down the following Rules for the examination of Officers, appointed to the Commissariat Department:

Examinations will be held at Head Quarters of Divisions only, by Committees composed of the Senior Revenue Officer at the Station, the Deputy or Joint Deputy Commissary General and the Superintending Engineer of the Circle; the Senior to preside, or, in the absence of the last-named Officer, the Executive Commissariat Officer, or Executive Engineer may be appointed. When the services of the Executive Commissariat or Executive Engineer may not be available, the Major General Commanding the Division may select any Officer as a third Member in his place.

The Reports of Committees are to be submitted to Government through the head of the Commissariat Department.

Candidates for the Commissariat Department will, before appointment to it, be examined in the Rules of Arithmetic, including Vulgar and Decimal Fractions, Involution and Evolution, also in Mensuration and the Computation of Areas and Solid Contents, and the system of Book-keeping by Single and Double entry.

Officers, previous to appointment to the Commissariat Department, are already required, by existing Regulations, to have passed the Interpreter's Examination in the Native Languages.

During the year of probation, the young Officer will be appointed to do duty in one of the large Commissariat Offices, and the Executive Officer in charge is required to exact from him punctual attendance during office hours, and at Committees, Inspections and other Executive duties, and to afford him every assistance in his power in attaining a practical knowledge with the routine of office duties.

The Executive Officer is required, on the completion of the Officer's term of probation, to furnish the Examination Committee with a certificate on the several points adverted to in the preceding paragraph. This certificate is to be attached to the Report of the Committee.

The following are the heads of the Second Examination:

1st. The Probationer's acquaintance with his responsibility and duties in the care and custody of the Public Cattle and Stores under the charge of a Commissariat Officer.

2nd. His knowledge of the system of procuring supplies by Departmental Agency or Contract, as circumstances may require, and the Rules affecting the preparation of Contract Deeds, and the liability of Contractors.

3rd. His acquaintance with the mode of rationing European Troops, and the different articles comprising their rations.

4th. His acquaintance with the mode of rationing Native Troops, and the circumstances under which rations are issued to them.

5th. His knowledge of Departmental Rules, and of the Forms of Returns furnished periodically to the heads of his Department.

6th. His ability to draw up with accuracy Estimates and average Statements of the cost of victualling Troops and feeding Cattle.

7th. His knowledge of the equipments of Cattle and Stores required for the Cavalry, Artillery and Infantry, with reference to their numbers and the distance to be marched.

8th. His facility in reading Gomashta's accounts, as presented in Persian or Hindee, and in writing Perwannas in the above languages.

9th. His ability to prepare monthly Disbursements from the Checked Accounts of Native Agents with an Account Current, and his knowledge of the vouchers required to support charges under the different heads of Expenditure.

10th. The extent to which the Probationer is conversant with the general system of accounts in the Commissariat Department.
